## Our Core Values

### Brief Description

Christ the Saviour Secondary School is a full-boarding, Imo State Government approved, coeducational institution located in a safe, secure, and serene environment that is free from distraction and suited for learning. Our educational program uses individualized learning models, research-and-discover learning techniques, and computer technology to create and maintain a rigorous and intensive academic program while paying attention to students' moral, spiritual, physical, and cultural formation.

### Vision Statement

We aim to form students who think clearly and listen carefully with understanding; who reason persuasively and articulate precisely; who are capable of evaluating their areas of strength and pursue the same in order to become the best they can be. We desire to form them to be socially graceful, spiritually gracious, and morally grounded in the virtues of nobility and statesmanship, with a deep love for God, self, and humanity.

### Mission Statement

To create and maintain a rigorous and intensive academic program that is combined with the moral, spiritual, and cultural formation of our students so as to enable them think, believe, and act in ways that are socially graceful, intellectually rigorous, and morally disciplined.

## Our Core Values

**Spirituality:** The bible tells us that "The fear of God is the beginning of wisdom". We therefore aspire to inspire in our students a deep reverence for God and the Blessed Trinity through prayer and worship services while respecting their religious affiliations.

**Respect:** We recognize that each student is created in the image and likeness of God and we strive to provide students with a learning environment that supports, respects, and elevates their dignity as human persons.

**Quality:** We focus on delivering the highest level and broadest spectrum of learning to meet the needs of our students in their onward journey to higher education.

**Empowerment:** We strive to provide students with the learning, guidance, and skills that build upon their personal strengths in ways that will encourage them to meet academic challenges with willingness and openness, and a determined resolve to overcome them.

**Commitment:** We understand that parents have entrusted us with the education of their children and therefore, we strive to maintain a highly qualified and achievement oriented staff both in the management of the school and in the delivery of educational curriculum.

**Discipline:** School management must stand irrefragable in their professional conduct and students must adhere to the code of conduct and disciplinary measures designed to maximize their education and formation and maintain the highest standards for the school.

**Collaboration:** We strive to work together as a community of committed individuals—proprietors, staff, parents, and students—in meaningful and productive ways to ensure that our students receive the highest and the most supportive educational learning possible for a secondary school.

## Overall Goal

### Management

- To maintain responsible stewardship through the delivery of high quality education.
- To be above reproach in our dealings with students, parents, and teachers. Christ is the pillar of this academic institution and we desire to do all things in fellowship with His blessings and wisdom.

### Students

- To prepare students sufficiently for GCE O'Level, WAEC, NECO, SAT and TOEFL (for those who may wish to study overseas) examinations.
- Holistic formation of each student by integrating academic learning with Spiritual, moral, cultural, and psycho-social formation.
- Computer literacy for all students and proficiency in typing before graduation.

### Teachers

- To retain teachers who are professional and diligent in their work with clear understanding of classical education and how it, not only works in the classroom, but also, fits into the overall mission of the school.
- To retain teachers who care deeply for our students, serve as academic mentors, and do all in their power and ability to make sure that students perform at superior academic levels as well as being well grounded in character and moral formation.

### Parents

- To cultivate in our parents a sense of responsibility for the school and develop a strong alliance with them in the education of their children.
- To have them well informed about the progress of the school and involve them in our unrelenting quest for excellence and in the development of the environment in which their children are being educated.
